

Monday 30th March 2020,

Good Morning Year 1 parents and children,

I hope you all had a lovely weekend. It's the start of a brand new week. It has been great hearing and seeing all the wonderful things happening at home. From home baking to helping around the house and making rainbows.

*Today's challenge is:*

- Find 5 items made of the same material. This could be plastic, metal, fabric, wood, rubber or foam. Then write a list of the things you found.
- Help someone around the house with at least 3 things today and take some pictures to show you in action.

- Which activity will you choose today from your child's home learning packs?

Please send us an email telling us how the daily challenge went or if you like to share any learning that your child has completed.

Thank you for your support in this unprecedented time.

Have a great safe day!

Miss Divecha
