

**Friday 24th April**

Good morning Year 2 parents and children,

Happy Friday! I hope you have all had a good week and have enjoyed completing some of the activities with your children.

If your child gets stuck on anything in the learning packs or daily challenges, please feel free to email me for some support. Also please do work through the learning packs at your own pace.

**Today's challenges –**

- If you would like to try lessons with a teacher/video :
- You can access the BBC interactive lessons (all subjects) at <https://www.bbc.co.uk/bitesize/dailylessons>
- The government have also launched lessons for all subjects for reception up to year 10 which has a great range of new lessons every day at <https://www.thenational.academy/online-classroom/schedule>
- Go on a number hunt around your house or outside. What numbers can you see? What are the numbers for? What do they tell us?

Have a great weekend and I will speak to you all on Monday.

Kind regards,  
Miss Hall
