

Monday 27th April 2020 , Day 6 Summer Term

Good Morning,

We hope you managed to enjoy some of the sun at the weekend as it looks like it might be a rainy week. Don't worry we have lots of activities planned to keep you busy! Attached is a timetable for your maths and English tasks for this week and some suggestions for other lessons. As always you have other tasks you can complete in your work packs along with.....

Daily Reminders!

Remember you can also practice times tables at TT rockstars, spag and spelling at spag.com and spelling shed, read for 20 minutes, exercise with Joe Wicks at 9.00am, listen to the interactive radio show at <https://radioblogging.net/> at 9.30am every day. Have a break at 11.00am and try listening to a David Walliams story at <https://www.worldofdavidwalliams.com/elevenses/> or listen to a story like Harry potter and the philospher's stone at audible stories <https://stories.audible.com/pdp/B017V54W6O> For a bit of light relief my daughter are going to start watching Malory Towers on CBBC if there are any Malory Towers fans out there and Paddington 2 is still on BBC iplayer!

This week in English we are planning our own stories based on 'The Game' Jumangi style. If you have not completed the first part of this writing pack (from last week) do that first. In Maths we are revising some areas we have already looked at in class such as equivalent fractions. We have noticed that whilst most of you have logged in and completed the Mymaths tasks so far, there are a few children who haven't. This might be because you are completing maths from your pack or maybe you have had trouble logging in. Please do let us know so we can help. After Maths and English today, you could try the next lesson about the Ancient Egyptians at <https://www.bbc.co.uk/bitesize/articles/zkjk8xs> - Send a picture of your finished posters or ancient bread!

As well as the lessons on the BBC there are also some Maths, English and History lessons you can watch on iplayer

at <https://www.bbc.co.uk/iplayer/episode/p089ny58/bitesize-911-year-olds-week-1-1-maths-and-history>

Daily Challenge: Nature rainbow hunt This activity involves going on a hunt in a garden or outdoor area to find all the colours in the rainbow. **Can you find all of the colours in the rainbow in your garden? What colours are difficult to find at the moment? Why might this be? Take a photo of what you find.**

Enjoy your day and keep sending us photos and emails- we love seeing what you have achieved!

Year 5 Team
