

Good morning Year 3 and 4,

Another beautiful day and another lovely day to complete your 'walk to the moon.' Remember, if you can, to send your videos to Mrs Caplan as we are going to be making a super video for the school! It has been really lovely seeing all your videos giving hints and tips which Miss May is collecting. She will be making a video for us all to look back on - what a lovely idea!

So lovely to see so many of you logging into MyMaths - super proud of the work you have already completed!

Daily challenges today:

1. Make (and film if you are feeling brave) a song or rap about anything of your choice. It could be about the world right now, it could be about your favourite hobby. The choice is yours!
2. Hide something in your house and then create a treasure map for your parents/carers/siblings. They have to use the map to retrieve the hidden treasure!!

Remember to try and complete some work each day but do not panic if you can't. Duvet days are just as important!! We love hearing from you all and miss you all very much, we love reading your emails and especially love seeing your videos.

Have another super day! We can do this!!!!!!

Mrs Kent, Miss May and Mrs Keddy
