

Dear Year 3&4, Parents and Carers,

Good morning everyone! It is nearly the weekend - hope you all have been enjoying the wonderful weather.

We received some great emails yesterday with secret messages for us to solve - I can't wait to try and solve them today

Your daily challenges today are:

1. You have been hired today to create new roller-coaster for an amusement park. You could build it out of lego, recycled materials, you can draw it - entirely up to you. What will be your roller-coaster unique selling point? The fastest? Loops?
2. Create a picture using only natural materials - sticks, twigs, rocks, leaves for example. Take a picture and send it to your friends, teachers and/or family.

Hope you have a lovely creative day!

We miss you all!

Kind regards,

Mrs Kent, Miss May and Mrs Keddy
