

Wednesday 20th May 2020,

Good Morning Year 1 parents and children,

I hope you're all enjoying the sunny weather. It has been lovely to see all of your work and everything you are up to. Continue to send your pictures to both us and Mrs Caplan so she can add them to the book.

Today's challenges are:

- Visit a zoo's website and explore the live webcams to find out what the animal gets up to. Create a fact card or poster about one of the animals. Include where it lives, its size and what it eats.
- Why not try the Escape game on MyMaths?
- Keep sending in your pictures for the class photos.

Have a great day and keep safe

Miss Divecha
