

Hello Nursery,

How are you? Here are today's challenges.

Minibeast Challenge:

Now you should have your own minibeast habitat complete with minibeasts. Well done!

Your challenge today is to make a label to go with your habitat for our 'Minibeast Museum.'

Ask a grown up to help you. Tell them some information about your minibeasts and their habitat and they can write it down for you.

You can help by telling them where to start writing, which direction to write in and sounding out some of the words.

Some you might want to have a go at writing some of the words yourself. Remember to write your own name on your work.

Please remember to send me a photo of your completed habitat and label so I can display them in our museum next to your friends' work.

Maths Challenge:

Make a caterpillar using a repeated pattern.

You can make it however you like.

You might want to draw or paint your caterpillar, you might want to use lego bricks, balls of socks or anything else you can think of.

I have attached some pictures to give you some ideas.

Physical Development Challenge:

Move like a minibeast:

Can you crawl on your tummy like a caterpillar?

Can you fly around the room like a butterfly?

Can you scuttle on your long legs like a spider?

Can you jump like a grasshopper?

Can you think of any other minibeast movements to make?

I hope you've all enjoyed learning about minibeasts this week,

Have a lovely weekend,

Miss Aust and the Nursery Team
