

Good morning year 5,

We hope you enjoyed focusing on slowing down yesterday and appreciating the things around you and joining in with some yoga and relaxation- don't forget to send in your completed activities to share. Last push on the TT rockstars today- come on year 5!! I will be letting Mrs Morley know who our top year 5 Rockstars are this week so join in!

Great to see some of your mixed up animal reports this week, please send them in when you have finished so we can celebrate your fabulous hard work this week. Today for your **English task** I would like you to complete your report and edit and improve it. Read it aloud, check it makes sense and has correct punctuation (., capital letters) and spellings. Next look at your sentence openers, have you included adverb openers (interestingly, unbelievably, strangely) or started with a subordinate clause (Whenever the pigafly digests its food,)? Have you used precise vocabulary (prominent, prey, surveying, juvenile, inhabit)? Have you included additional information (in addition...further more....) and included a relative clause for more information (This wild creature, who initially appears shy, hunts its prey ferociously)? Is your writing organised into clear paragraphs which contain different information (appearance, talents, habitat).

Mymaths today is Angles- remember on a straight line they add up to 180 and in a full circle 360- also remember opposite angle around a circle are equal in value.

<https://www.loom.com/share/7a36f7ec3cfc4ce1a117745d33239213>

Continue working on your topics –they are looking great- remember to choose a range of activity types.

Reading: Enjoy the next two chapters of the Nowhere Emporium today – next week we will be discovering some unexpected secrets! Don't forget to do some of your own reading too.

Friday challenge: Today's challenge is to have a go at racing paper aeroplanes- if you are not sure how to make one you could try

watching <https://www.artofmanliness.com/articles/how-to-make-the-worlds-best-paper-airplanes/> Take them outside- race against a sibling or mum and dad- whose goes the furthest? Why do you think that is?

Have a lovely weekend every one , email if you need any help or want to say hello and share your work.

Year 5 team
