

Dear Year 1,

We have made it to the end of another week. It has been lovely seeing all the work you are doing on MyMaths and from the photos you send to us.

Today's challenges are:

- Go into your garden or local park and collect some leaves/flowers/twigs/grass. When back inside create a picture from this. You could also make a nice border to go around your picture!
- Draw around your hand. In each finger write something you love about yourself! e.g. your hair, your smile, that you are funny.

Have a lovely weekend and stay safe.

Miss Divecha
