

Friday 5th June

Hello year 2 parents and children,

Happy Friday! I hope you have all had a great week.

Today's challenges –

- Make free-standing towers using a range of materials including boxes, construction kits or recycled items. What is the tallest tower you can make? Which tower is the sturdiest?
- Collect six small items from around your house. Place them, one at a time, inside an old pillowcase or box and challenge someone in your household to reach their hand inside. Without peeking, ask them to feel and describe the object. Can they say what it is?
- Feelings – Tell me 5 things that make you happy, 5 things that make you excited, 5 things that make you scared, 5 things that make you sad and 5 things that make you angry.

Have a great day and stay safe!

Miss Hall
