

Happy Wednesday,

We are halfway through the week and it is great to see so many of you having a go at the Maths and English each day. Let us know what you are enjoying most or if you are finding something tricky, please let us know as we are here to help.

Keep playing TTRockstars. Remember there is a battle between Year 3 and 4 happening right now! Don't forget to keep working on MyMaths, EdShed and TTRockstars each day and use your homework packs to help you in your learning.

Remember a teacher will be calling you each week now. If you miss their call, don't worry they will call again next week. If you would like to speak to them this week, please email us and they will try and call you back.

Today's Challenges:

1. Year 3 MyMaths – Today we are looking at Position and Turning. Use the link to help you <https://www.loom.com/share/2af495abdccce468896f36a22e63a4d68>

Year 4 My Maths – Today we are looking at Money. Use the link to help you <https://www.loom.com/share/b9f76af12c2848b296a5c43ebffeb29a>

2. Today we are learning about an heroic animal. <https://www.loom.com/share/bd4de90554b941a5b833463141437fe4>

Use the link, watch the video and answer the questions and activities below

- a. What date was the newspaper written and by whom?
- b. How many soldiers did G.I. Joe save and how?
- c. Where did the RAF bomber crash and how were the crew saved? How long did it take?
- d. Which word shows that the news arriving at the air base was good news?
- e. What are allies?
- f. Writing Challenge – Imagine you are giving G.I. Joe a medal of honour and you have been asked to write a speech to award him the medal.

3. Museum of Nature – Whilst all of the animals in an ecosystem are important, we rely on some more than others. When something changes in the ecosystem this can be big changes as a consequence whether it is food chains breaking down or habitats being destroyed. We have learnt about pollination when we were looking at plants and know how important bees are to pollinating flowers and it is estimated that one third of the food we eat relies on pollination. In recent years the destruction of habitats and changing in farming has meant that bees are disappearing. This could mean big trouble and change for all of us.

- Research the importance of bees on pollination and show this in a diagram or description.  
- Write a letter to an MP explaining to them how important bees are and why we need to act now to protect them.

- Create a poster showing all the ways we can help save the bees such as planting more flowers and creating bee shelters.

4. Today's challenge is to get used to google classrooms. You should have received the link and guidance as well as your username and password yesterday. Today all we would like you to do is write a comment on the stream of your classroom.

Remember to keep emailing in your amazing work, if you have any questions or if you just want to say hi. We love to hear from you and would love to share it in our newsletter.

Mrs Keddy, Mrs Kent and Ms May
