

**Monday 29th June**

Hello year 2 parents and children,

I hope you all had a fantastic weekend and spent some time with the people you love. I have been busy painting this weekend, I still can't get it all out of my hair! Have you done anything nice this weekend you would like to share?

**Today's challenges –**

- This week in school, we are looking at 2D shape. Draw 5 different 2D shapes into your book. Next to the shape, write the name of it, how many sides it has, how many corners it has and where you may see this shape in everyday life.
- Create a superhero city landscape using newspaper. I have attached an example to this email.

Have a great day and stay safe! Thinking of you and missing you all.
